**KC2026 Transport Mobility Plan RFP #2024-002**

**Questions and Answers**

1. Is a firm conflicted/precluded from bidding on the future actual transportation service / operations contracts for KC2026 by bidding on this more planning focused RFP?

*A: KC2026 is sensitive to conflict of interest concerns. Submission of a proposal under the current RFP would not preclude a proposer, including the selected proposer, from participating in future RFP opportunities related to KC2026's transportation mobility plan. However, any individuals/consultants who assist in the development of a future specific RFP request will not be allowed to submit or assist in the submission of a proposal in response to that specific future RFP.*
